Re: Delphi Motion to terminate salary retirement Healthcare and Life insurance Benefits

Dear Sir,

On Feb.4, 2009, Delphi Corp. notified me that they are filing motion to terminate  
Salary retirees' healthcare and life insurance benefits.

After working 36 years for General Motors, and then Delphi Corp., I was forced to retire  
in Oct.. 2008. I am 59 years old. Before retirement, I was told by the company there  
would be healthcare plan until I am qualified for Medicare.

Our current retiree health care plans for a family of three, beside company contributions,  
requires my own contributions of \$233/month, or \$2,796/year. With this benefit  
termination, I was informed by the Metropolitan Life that the monthly premium will  
jump to \$1,422/month, or \$17,064/year. With such a big jump in healthcare premiums, it  
is putting hardship on retiree like me with a fixed income. Also with a recent slow  
economy, it has been difficult in the last three months to find a full time job to replace the  
healthcare benefits.

Delphi Corp. is targeting salary retirees but not the union retirees.

Please reject this motion in terminating the Retirement healthcare and life insurance  
benefits for the salary retirees.

Yours truly,

Kin Ng
